Pendrive preparation

▶ In the LAIB, go to folder
`Y:\Mellia-Laboratori_di_Internet_e_Comunicazioni`
▶ Insert pendrive and format it
  ▶ Disk name: `Lab1604`
▶ Use the `Unetbootin` app to prepare the pendrive
  ▶ Select Diskimage -> ISO
  ▶ Use the `Lab16.04.iso` file as ISO image
  ▶ Create a persistent file of 2048MB
  ▶ Select the pendrive USB disk letter
  ▶ Click OK
▶ At the end, replace the default `syslinux.cfg` on the pendrive with the custom one in the `Y:` drive
